

### Education Chair Report 2023

Report from: Charlotte Van Audenrode, Chair  
Reporting Period: September 2023 – March 2024

This year was quiet for the education committee. A vestibular therapy course as well as a knee assessment course were held successfully throughout the year. However, after attempting to run a few extra courses, with little interest or sign up for those, the decision was made to withhold running more courses until the membership survey results were received. We are hoping to tailor future course offerings to what the membership has requested with hopefully a higher attendance.

We understand that there is a request for courses in cities outside of Calgary, and this is something we are looking into. The education committee would require the help of the membership and them to offer either clinical space, rooms, or course type interest. We are currently locked into limited offers due to the lack of budget and inability to commit instructors to smaller towns.

The committee is always looking for help and would love to have more members join.

Charlotte Van Audenrode  
Education Committee Chair
